"I have received so many inquiries as to my attitude toward a renomination I have decided to make the following statement:

"Some time ago I said privately that I did not desire a renomination and that I felt that I could not undertake to serve a second term. This, however, was for reasons entirely personal. Upon further reflection I am convinced that I have no right to regard these reasons as conrolling and that if renominated I ought o accept. But it is my desire that the will of the party, to which I belong, shall e freely expressed and that it shall take such action as shall be most closely in accord with public sentiment.
